HOW-TO FINANCIALLY PREPARE FOR COLLEGE

Going to college opens you up to many brand-new experiences and challenges. Striking out on your own to become a financially independent adult can be scary, especially if you don't feel prepared. Here are a few financial tips to help you feel ready to take on the world!

Create a Budget - Creating a realistic budget is the best way to set yourself up for financial success in college. Start by making a list of daily, monthly, and yearly expenses and map out their costs. From there, you will have a solid idea of how much you will spend overall.

Earn Some Extra Cash - Bringing in a little extra money before your first day of class gives you an advantage for your financial future. Whether you work a summer job or start a side hustle, any additional income can help you feel secure and prepared for the next season of your life. If you're not in a place to earn over the summer, many colleges offer work-study programs, so you have a steady income throughout the school year.

Build Your Credit - Your credit score will stick with you throughout your life, so it's smart to start building it early. Going into college with a good credit score will open plenty of opportunities for you. You can start building your credit by opening a secured credit card. Owning a secured credit card is like putting training wheels on a regular credit card, so there is less room for error. If opening a credit card yourself seems too intimidating, you can become an authorized user on your parent or guardian's credit card.

FEEL CONFIDENT IN THE WAY YOU SPEND.

Our Visa Credit Cards enable you to enjoy low rates and other conveniences while you spend.
